## A LITTLE BIT ABOUT US:

Harvestville Farm is part of a fifth-generation family farm located in Southeast Iowa. For over 100 years, our family has strived to be an ecologically friendly farm and firmly believe in being good stewards of the land. What started out as a fall focused business, has turned into a multi-season business that operates each April – December. We provide the freshest garden veggies, homegrown pumpkins, squash, and gourds, and offer fresh-cut trees and all the trimmings for your home during the holidays! We look forward to seeing you soon at the farm!
